

# StovePlus

## Coaching project developers on cooking energy solutions

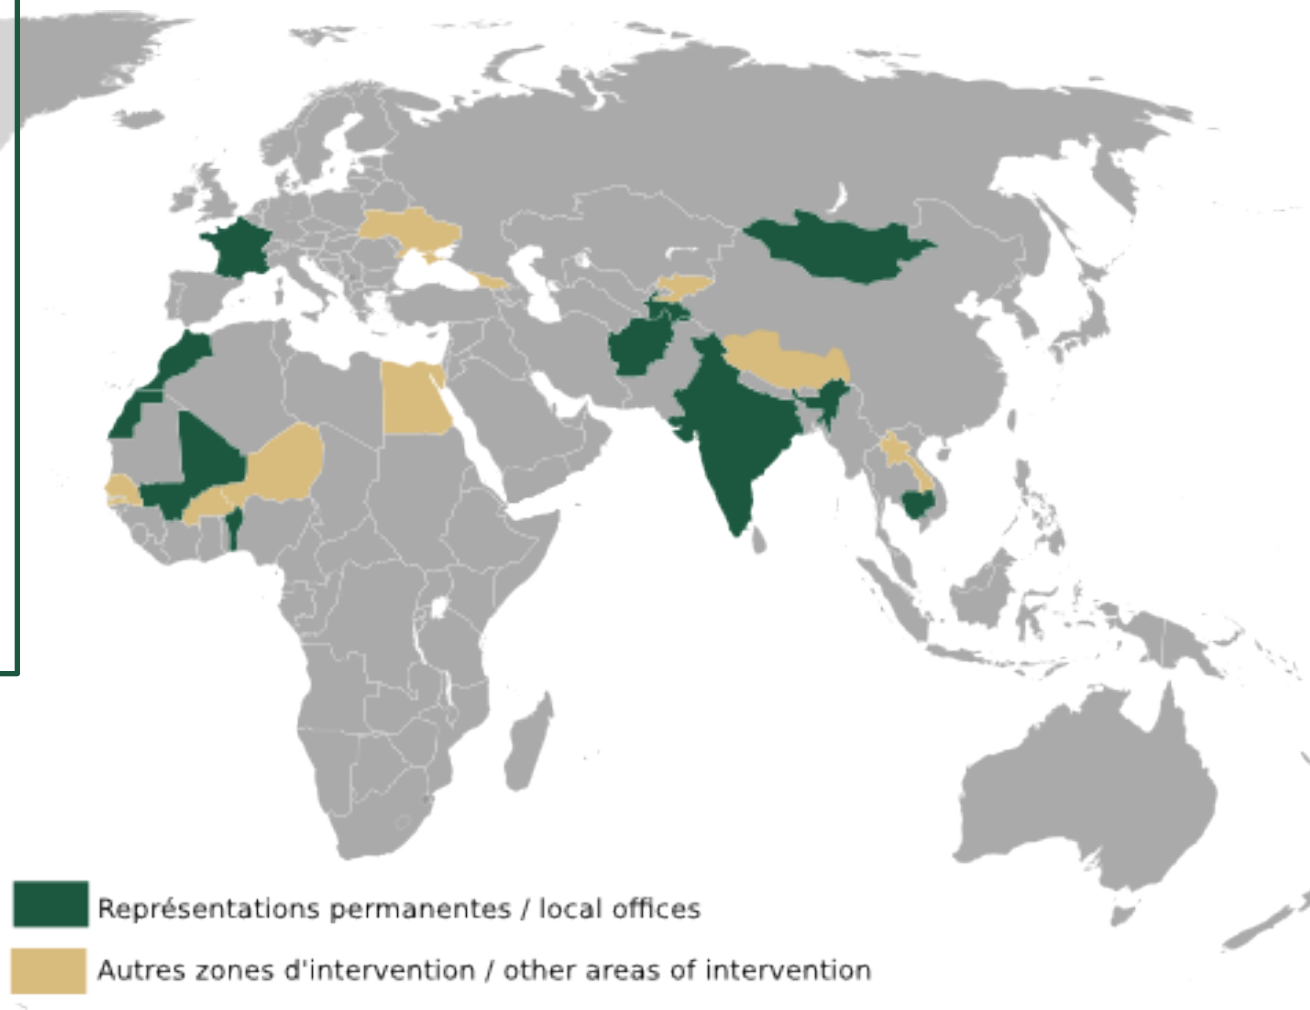

---

Bonn International Cooking Energy Forum 2013  
*26th to 28th June 2013*

## GERES, in a few words

- ▶ French NGO operating since 1976
- ▶ Preserving the environment and improving the livelihood of the poor
- ▶ Bringing energy-efficient solutions to populations
- ▶ Over 200 employees
- ▶ About 55 projects run in Europe and 12 developing countries
- ▶ 157 technical partners in 2011

**2,000,000**  
improved cookstoves  
distributed in Cambodia

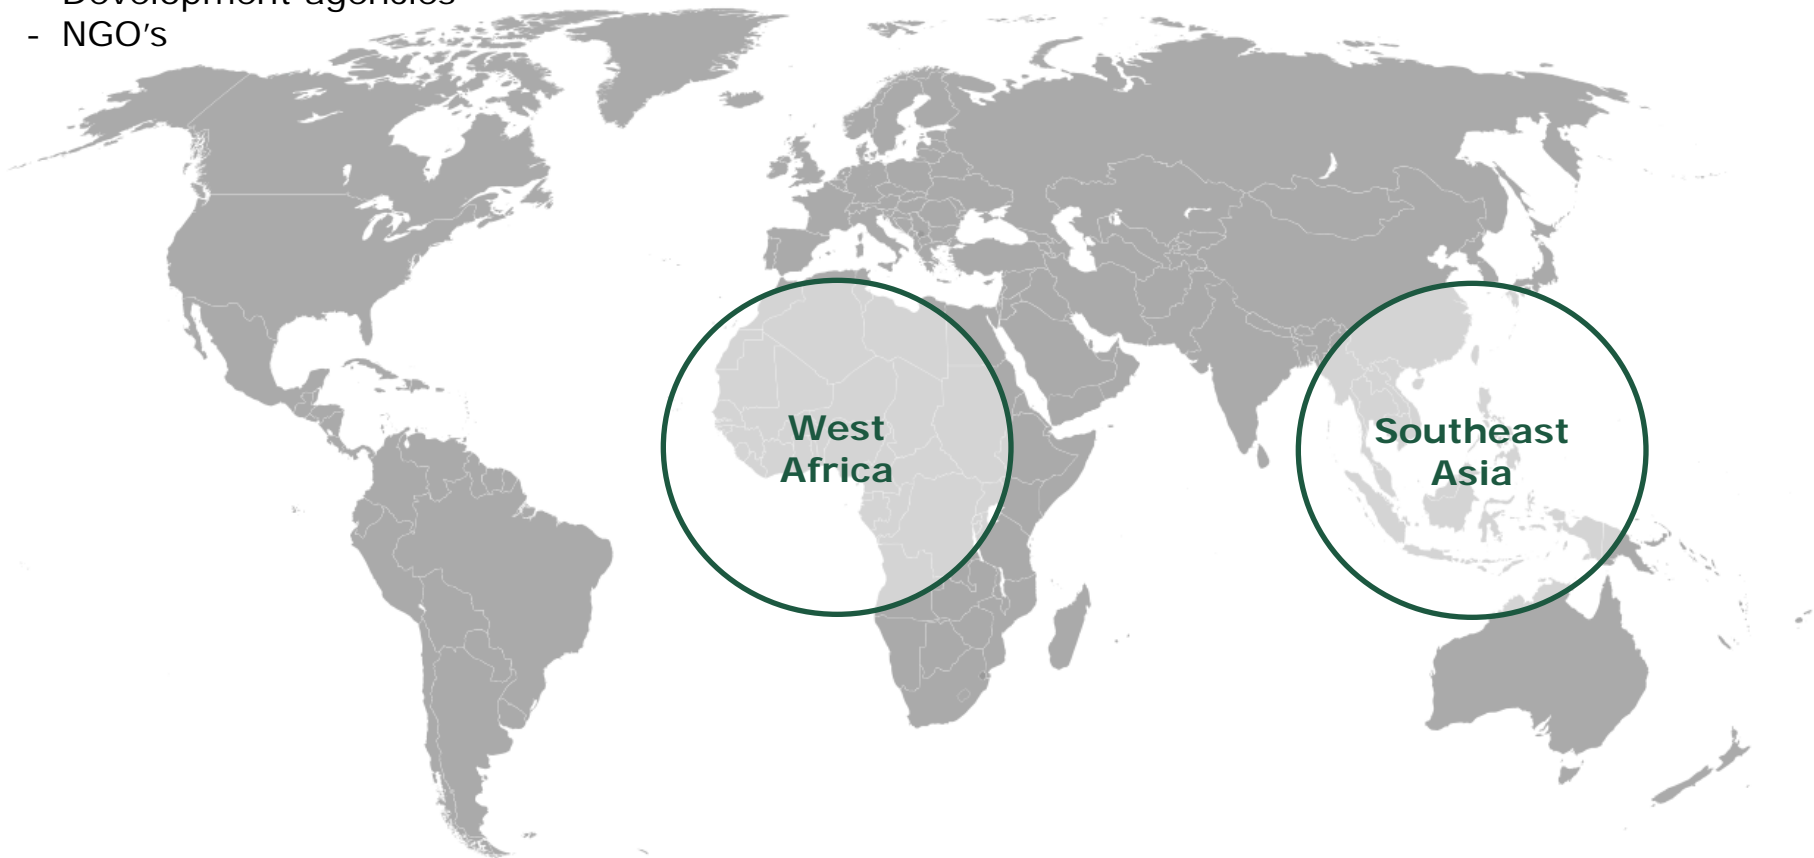

► Facilitating access to improved cooking solutions for populations relying on biomass

► Coaching project developers:

- Local entrepreneurs
- Local governments
- International institutions
- Development agencies
- NGO's

- ▶ A unique understanding of clean cooking challenges and needs
- ▶ Experience working in the field and at the global level
- ▶ Technical support provided at both local and international levels
- ▶ **The service packages include:**
  - Baseline Assessment
  - Testing and R&D
  - Standards and Labelling
  - Quality Assurance and Quality Control
  - Monitoring Systems
  - Impact Evaluation
  - Carbon Finance
  - Business Development

- ▶ Stove*Plus* offers service packages that cover the whole project development chain.
- ▶ Stove*Plus* supports project holders in their initiatives but does not own the projects.
- ▶ Stove*Plus* connects local actors with their institutional and international environment.
- ▶ Stove*Plus* offers long-term partnerships rather than one-shot consultancies.
- ▶ Stove*Plus* adapts to various actors and needs, from small local entrepreneurs to large international NGO's.

Stove*Plus* aims at contributing to the dissemination of  
**2 million improved cookstoves**  
 in Southeast Asia and West Africa  
 by 2017.

---

It represents the French contribution to the international goal of  
 100 million cookstoves disseminated  
 by 2020.
